EASY ADJUSTABLE STAINED GLASS FOIL

Using a sharp cutter, you can use one of the lead lines to cut the shape in half, creating a base starting point. Feel free to cut on any of the lead lines or insert stripes from another part to adjust to any size.

You can cut off edges which will still preserve the image as it's intended. Extra leadlines are supplied as well which can be applied in any direction.

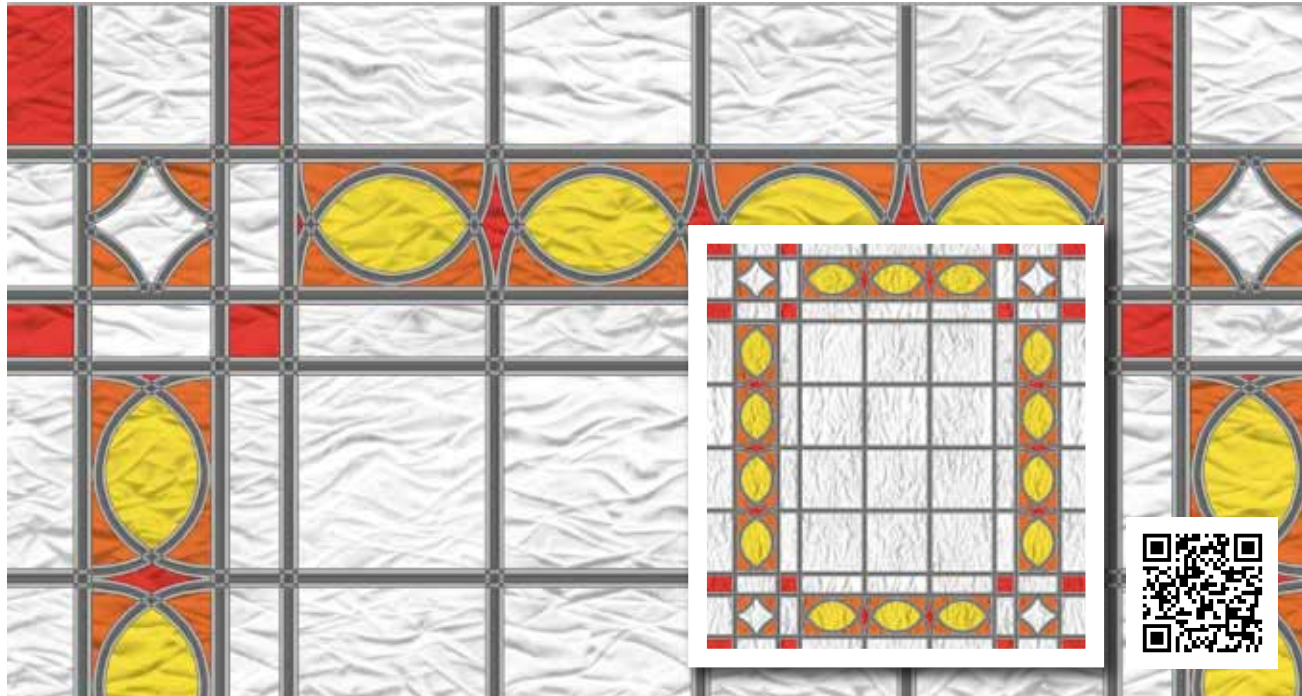

You'll be able to apply a stained glass look and feel to almost any size or shape window.

The product is available in four different color schemes and can be obtained as a version with glue.
